ACCIDENT CAUSED BY BOY ARMED WITH PEA BLOWER.

Caused Electric Car to Collide With a Patrol Wagon and Injured Nine Persons—Lad Escaped.

Chicago, Nov. 1.—A 10-year-old boy, celebrating Halloween with a pea gun, caused a collision between an electric car and a patrol wagon last night, in which nine persons were more or less seriously injured. A pea from his blower struck the eye of John Paul, motorman on a Fulton street electric car, just as the car was passing Franklin street, and Paul, smarting under the pain, clapped his hands to his face. It was only for an instant that he neglected the controller and the brake, but in that time the car crashed into the Laramie Street Station patrol wagon that was conveying two patients to the Washington Home. The patrol wagon was wrecked by the impact, and all of the five persons riding in it were injured. Four persons in the car also were hurt. The police were unable to learn the identity of the boy whose pea blower caused the accident.

DROP IN CORPORATION CAPITAL October Capitalizations Show Decrease in Eastern States.

New York, Oct. 1.—During the month of October the total new capitalization of corporations in Eastern States was \$24,000,000, compared with \$28,200,000 in September, \$26,500,000 in August and \$26,500,000 in July. The fact that last month's total exceeded that for September was due to the amalgamation of the Atlantic shipping interests. Deducting the capitalization of the shipping combination, \$10,000,000, there would be left the smallest amount for any one month this year.

The aggregate capitalization of companies chartered in the Eastern States during the month with a capital less than \$1,000,000 was about \$25,000,000.

DARKNESS AT SANTA MARIA. Volcano's Action Has Caused Great Alarm Among the People.

City of Mexico, Nov. 1.—Midnight darkness prevails in the vicinity of Santa Maria, in Guatemala. Telegraphic communication has been restored with Tapachula, at the extreme southern corner of the State of Chiapas, near the volcano. Darkness has prevailed there fifty-three hours, causing an indescribable panic among the residents, who knelt in the streets and prayed for mercy. Earthquakes caused the collapse of several houses. The German steamer Laxar at Port San Benito, Soconusco, was covered with ashes. The captain put to sea to escape danger. The darkness at noon was so complete that night signals were necessary.

PORT ARTHUR CANAL APPROVED It Is Pronounced Safe for Vessels of Twenty Feet Draft.

Port Arthur, Tex., Nov. 1.—The Port Arthur ship canal has been examined by the special commission appointed by the Kansas City Southern Railway and pronounced safe for navigation. This commission, consisting of R. D. Steele, surveyor for the New York Board of Marine Underwriters; Captain Patterson of the British steamer Huntcliffe and F. C. Plummer, Government pilot, has decided that all vessels of 20 feet draft and not over 45 feet beam can navigate the canal without danger. Steamers of less than 20 feet draft are safe with any beam.

GRAND STAND COLLAPSED. Thousands Persons Watching Football Game Were Shaken Up.

Chicago, Nov. 1.—While Wisconsin and Michigan football teams were playing on Marshall Field this afternoon the grand stand suddenly collapsed. A thousand people went down in the crash, and at first it was believed that many had been killed and hurt. It developed, however, that no one was even seriously hurt. Many were scratched and bruised, but no limbs were broken. Play was interrupted for only about five minutes.
